

Knowledge:

Find out about possible materials that could be used to make a strong house for the three little pigs.

You could test the materials in water, wind and by pulling them apart to see if they rip.

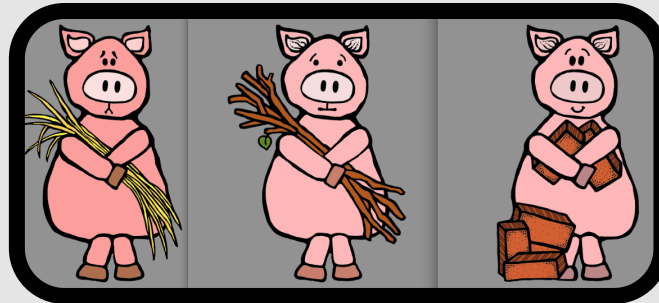

Which is the strongest material?

Which is waterproof?

Carlton School

Home Learning Project, this term we are learning about the three little pigs.

Deadline for Home Learning is
Friday 22nd March

Creative:

Design and make a house for the three little pigs that won't fall down.

What material will you use and why?

How will you attach your materials together?

How will you make sure your house is big enough for the pigs?
